

Material Content:

a. Wall-mounted switch lockout E250 Part A

b. Wall-mounted switch lockout E250 Part B

Application:

1. Loosen the screws of the wall-mounted switch plate.

2. Place part A on the wall-mounted switch plate and tighten it with the screws that were previously removed.

3. Set the switch to the desired position (On or Off).

4. Attach part B from above onto part A.

5. Insert a padlock through the hole that is on the lower side of the wall-mounted switch lockout and lock it.

WARNING:

Product should only be used by personnel properly trained in lockout procedures. Product should only be used on the appropriate application (s). Follow product instructions for proper application of each product. Properly trained personnel should check to ensure that product is secure and equipment will not operate. Failure to follow product instructions and warnings may result in serious bodily injury or death.
